

SINAP flat-sheet membranes

Membrane panels and modules for MBR systems

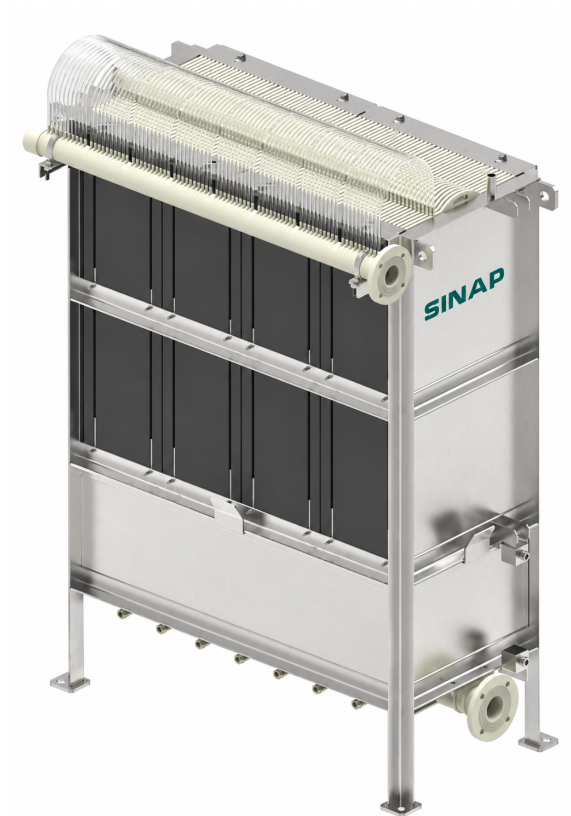

SINAP SERIES

Flat-sheet membrane filtration

A range of flat-sheet membranes for wastewater treatment, with modules available in different filtration areas.

SINAP80 / SINAP150

19 module models

Illustrative image of the SINAP range.

Flat-sheet membrane panel

Type	Model	Membrane area (m ²)
Panel	SINAP SHEET	0.8

Module range

Series	Available models	Membrane area per module (m ²)
SINAP80	8	80 - 320
SINAP150	11	75 - 600

Membrane areas for individual models are listed on the following page.

Membrane module specifications

Models and membrane areas

Type	Model	Membrane area (m ²)
Module	SINAP80-100	80
Module	SINAP80-120	96
Module	SINAP80-140	112
Module	SINAP80-150	120
Module	SINAP80-160	128
Module	SINAP80-200	160
Module	SINAP80-100D	160
Module	SINAP80-200D	320
Module	SINAP150-50	75
Module	SINAP150-60	90
Module	SINAP150-80	120
Module	SINAP150-100	150
Module	SINAP150-120	180
Module	SINAP150-140	210
Module	SINAP150-150	225
Module	SINAP150-160	240
Module	SINAP150-200	300
Module	SINAP150-100D	300
Module	SINAP150-200D	600

SINAP SHEET panel membrane area: 0.8 m².

Dimensions, connections, materials and operating conditions must be checked against the data sheet for the selected model before system sizing.

Range data source: supplied SINAP price list. The membrane areas shown refer to individual models.
